CYGNET BANNERS

- The Cygnet Association (tCA) is responsible for the banner system, including council approval and hoisting.

- The banners should be made up to fit and be hoisted on the **Flag Trax Banner System.**

- <u>All proposed banner designs have to be approved by Council</u>, as the system still belongs to them. Please send your design well in advance to tCA so we can get them approved for you.

- ***Please book the dates when you want to use the system.*** *First come first serve!*

- Any graphic designer of your choice can do the artwork for the banners (see specifications below).

- Allow 2-3 weeks turnaround for the making of the banners. *Approximate* cost for a full set (9 banners) is $2,000.

- We ask for a small donation to install the banners.

- Council uses these two companies for the printing and making:

  Flagworld
  22-24 Miles Street, Mulgrave VIC 3170
  Ph: 1800 135 247
  Flagworld - Carroll & Richardson | Flags & Banners | Custom Printing | Marquees - Flagworld

 **Selby's**
  30-36 Mark Anthony Drive, Dandenong VIC 3175
  Ph: 03 9706 4755

———— Represents Trim Line

———— Represents Bleed

———— Represents Clearance Area
(Keep all important logos and text inside of this area)

artwork specifications

File format required

Please supply a print ready pdf with the following specifications:

Where possible, use Pantone Solid Coated Colours in art and particularly in logos (using Pantone colours will produce a more accurate colour).

Pantone colours to be supplied as spot colours in art (do not change to cmyk).

- Art to be set up using product template or with 50mm bleed on all sides if custom size

- Product template is at 10% of final size - do not adjust or re-size the template

- Required resolution for art set up at 10% is 900dpi

- Outline all fonts

- Do not have any elements in art overprinting

- Embed all images in art before creating the pdf

- Delete all template lines and guides before creating the pdf

- Multi-paged pdfs will not accepted, art must be saved as a single paged pdf for each artwork

- Pdf to be created in CMYK colour space mode (not RGB)

- Maximum file size accepted is 500MB

* Extra charges will apply if art cannot be supplied as per above specifications.
